Shaping Tomorrow Together: Annual Credit Union Meeting Invitation

Join us for our annual credit union meeting, where we'll delve into the credit union's current state and vote on crucial matters. This is your chance to actively participate in decision-making and learn about our future plans. We'll cover financial performance, unveil new products and services, and conduct elections for board members. Take this opportunity to interact with our board members and management team, addressing any questions you may have. We urge all members to attend and make their voices heard. The meeting is scheduled for Friday, April 25, 2025 from 11am to 12pm, the University Drive Campus will be held in Building 1 Conference Room 1W-104 and at the Heinz Campus in Building 70 Conference Room 1A-163, with refreshments and cash prizes provided. We anticipate your presence and engaging discussions!

Reviving Dormant Accounts: A Quick Guide

Exercising your dormant accounts is important to avoid fees and account closure. If left inactive for too long, these accounts can be subject to fees and may even be closed by the financial institution. To prevent this from happening, it's important to exercise your dormant accounts by making sure they are still active and in good standing.

Here are a few steps to take:

- Review your account details, including balance, activity, and fees.
- Make a small transaction, such as a deposit or withdrawal.
- Update your contact information with the financial institution.
- Set up automatic transactions.
- Review your dormant accounts regularly.

By following these steps, you can keep your accounts active and in good standing.

Securing Your Mobile Phone: Protecting Your Personal and Sensitive Data

In the digital age, our mobile phones serve as repositories for a vast array of personal and sensitive data. From contacts to financial information, safeguarding this wealth of information is crucial. This article provides a comprehensive guide on fortifying your mobile phone's security.

Securing Access: The first line of defense is setting up a strong authentication method, whether it's a robust passcode or the use of fingerprint recognition. This crucial step prevents unauthorized access, especially in the unfortunate event of a lost or stolen phone.

Installing Security Software: Proactively protect your device by installing security software. This includes antivirus and anti-malware programs that act as a shield against potential threats and malicious software, ensuring the integrity of your data.

Smart App Usage: Exercise caution in selecting and using apps. Stick to trusted sources, such as official app stores, and avoid downloading from dubious links. Ensure that apps serve legitimate purposes, and scrutinize the permissions you grant them.

Mindful App Permissions: Be discerning when granting permissions to apps. Only authorize access for apps that genuinely require specific information. Exercise particular caution with apps requesting access to sensitive data like contacts, location, or financial information.

Your mobile phone, a repository of personal and sensitive data, demands a comprehensive security strategy. By implementing strong authentication, installing security software, and being discerning about the apps you use, you can create a robust defense against potential threats. Stay vigilant and proactive to ensure your mobile device remains secure in the face of evolving digital risks.

Teaching Kids About Money: 3 Essential Tips

Instilling financial wisdom in kids is crucial for their future. Here are three practical tips to make your children money-savvy.

- 1. Start Early and Make it Fun:** Introduce financial concepts through games and simple activities. The earlier, the better - making learning enjoyable sets the stage for a financially responsible future.
- 2. Teach the Value of Saving:** Encourage saving by helping your kids set up a savings account. This introduces them to the concept of earning interest and fosters a habit of long-term financial planning.
- 3. Lead by Example:** Demonstrate responsible financial behavior by managing your money wisely. Share your decision-making process on budgeting, saving, and making choices. Your actions leave a lasting impression on your children.

By incorporating these three tips, you can set your children on the path to financial literacy. Making learning about money engaging and part of their daily lives ensures they are well-prepared for financial responsibilities in adulthood.

Spring into Action: Organizing Your Finances for a Fresh Start

As spring brings a sense of renewal, take the opportunity to freshen up your financial landscape. Here are quick tips to help you declutter and organize your finances for a fresh start.

- **Review Budget:** Reassess your budget to align with current financial priorities.
- **Declutter Documents:** Clear out unnecessary paperwork and create an organized filing system.
- **Check Credit Report:** Review your credit report for errors and discrepancies to maintain a healthy credit score.
- **Evaluate Subscriptions:** Cancel unnecessary subscriptions to simplify and save money.
- **Set Seasonal Goals:** Define achievable financial goals for the season, such as saving or paying off debt.
- **Explore Investments:** Assess your investment portfolio and consider strategic decisions.

Spring into action by organizing your finances, setting clear goals, and embracing a renewed financial well-being. The majority of your records should be stored for quick access. You may want to store them in a fire-safe box and sort them using the general categories listed above as a guide, but tailor your system to suit your needs. This will help ensure that you can quickly access important documents when you need them.
